CPSC/OFC OF THE SECRETARY
PRELIMINARY INFORMATION
2000 JUL 31 P 12:06

SUMMARY OF MEETING:

The work group met and discussed normal and abnormal operating conditions and the appropriate proposed requirements for including into the standard for Toy Safety, ASTM F963. Some progress was made in defining the test for normal operation. The normal operation test is the basis for many of the other test requirements proposed.

The work group will reconvene in September.
